

F5 Memory Scalability on 325557_3216152 (Legacy Feasibility)

Legacy feasibility result on 325557_3216152; not a current block-kernel performance comparison.

GPU_Opt and GPU_Opt_Pure_Chunked extend the observed feasible range but do not provide unlimited capacity.

X = CUDA out-of-memory recorded in the log (GPU_Opt_Pure, n=5 per batch); P = OOM_OR_FAIL, exit 137, cause not independently confirmed (GPU_Opt b12288, n=1; sweep stopped).
